

# RANFURLY SUPERANNUATION SCHEME

## RANFURLY AUSTRALIAN DOLLAR BALANCED FUND

### FUND UPDATE

For the quarter ended 30 June 2017.

This fund update was first made publicly available on 2 August 2017.

#### What is the purpose of this update?

This document tells you how the Ranfurly Australian Dollar Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Ranfurly Strategic Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The Fund invests directly into underlying funds in proportions determined by the Manager to achieve the investment objective of the Fund. The Fund currency is Australian Dollars (**AUD**). The objective of the Fund is to balance capital preservation and capital growth, with a level of volatility that generates a positive return with a moderate level of risk associated with investing in a mix of equity, fixed interest and cash.

Total value of the fund	AUD Nil
Number of members in the fund	Nil
The date the fund started	30 November 2016

#### What are the risks of investing?

Risk indicator for the Ranfurly Australian Dollar Balanced Fund<sup>1</sup>.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the market index returns data for a 5 year period to 30 June 2017<sup>1</sup>. While risk indicators are

# RANFURLY SUPERANNUATION SCHEME

usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	Not Applicable <sup>2</sup>
<b>Annual return</b> (after deductions for charges but before tax)	Not Applicable <sup>2</sup>
<b>Market index annual return</b> (reflects no deduction for charges and tax)	14.50%

The market index annual return is calculated using 45% MSCI World, 10% MSCI AC World, 22.5% FTSE Actuaries Government All Stock, 22.5% Bank of America Merrill Lynch Sterling Non-Gilt, hedged to Australian Dollars.

More information about the market index is available on the Ranfurly Superannuation Scheme's offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

## What fees are investors charged?

Investors in the Ranfurly Australian Dollar Balanced Fund are charged fund charges. Our estimate of fund charges is:

	% of net asset value
<b>Total fund charges (estimated)<sup>3</sup></b>	1.54%
Which are made up of—	
<b>Total management and administration charges (estimated)<sup>3</sup></b>	1.54%
Including —	
Manager's basic fee	1.00%
Other (estimated) management and administration charges <sup>4</sup>	0.54%

### Other charges

The Funds may incur additional charges from the Underlying Funds when making an investment or withdrawal. More information on these fees is in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

Investors may also be charged individual action fees for specific actions or decisions (for example, switching funds for second or subsequent switches). See the Product Disclosure Statement for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

# RANFURLY SUPERANNUATION SCHEME

## Example of how this applies to an investor<sup>5</sup>

John had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, John received a return after estimated fund charges were deducted of \$1,296 (that is 12.96% of his initial \$10,000). John paid \$0 in other charges. This gives John a total return of \$1,296 for the year.

## Notes

---

<sup>1</sup> This fund came into existence on 30 November 2016. To calculate the risk indicator, market index return data has been used for the five year period ended 30 June 2017. Using market index return data may make the risk indicator a less reliable indicator of how much fund values are likely to go up and down in future.

<sup>2</sup> The fund has not yet been in existence for a 12 month period.

<sup>3</sup> Excluding GST. The fund has not been in existence for a 12 month period, so the Annual Fund Charges are based on an estimate of assets under management, fund performance, fees and expenses forecast to occur in the 12 months following the first unitisation of the fund. More information about the estimated Annual Fund Charges is available on the Ranfurly Superannuation Scheme's offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

<sup>4</sup> As the fund has not been in existence for a 12 month period, these fee estimates are based on our best estimate of the forecast asset flows and fund performance. Fee estimates are calculated monthly based on agreed fee rates as a % of forecast assets in the fund or by allocating estimated direct costs to the fund. We have included all known and expected expenses of the fund in the estimate of Annual Fund Charges. Included in the Annual Fund Charges is an estimate of fees charged monthly by the underlying investment managers to their funds. More information about the estimated Annual Fund Charges is available on the Ranfurly Superannuation Scheme's offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

<sup>5</sup> As the fund has not been in existence for a 12 month period, the example has been calculated based on the market index return less estimated Annual Fund Charges. The impact of tax on the market index return cannot be calculated until the Scheme is invested. The Scheme invests into foreign assets where income is determined under the Fair Dividend Rate Method and is subject to tax under the Foreign Investor Zero Rate PIE tax regulations.

<sup>6</sup> The other position for the Key Personnel is a current position.
