The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on a combination of market index returns data and actual returns for a 5 year period to 31 December 2018¹.

Notes

¹ This fund came into existence on 26 May 2017 and received its first investment on 27 October 2017. To calculate the risk indicator over a 5 year period, market index return data has been used for the period up to 31 October 2017 and actual returns have been used from 1 November 2017 to 31 December 2018. More information on the Annual Fund Charges is available in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at www.companiesoffice.govt.nz/disclose.

More information on the Other Management and Administration Charges is available in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at www.companiesoffice.govt.nz/disclose.
