What are the risks of investing?

Risk indicator for the Ranfurly New Zealand Dollar Conservative Fund¹.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on market index returns data and actual returns for a 5-year period to 30 September 2023¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this fund.

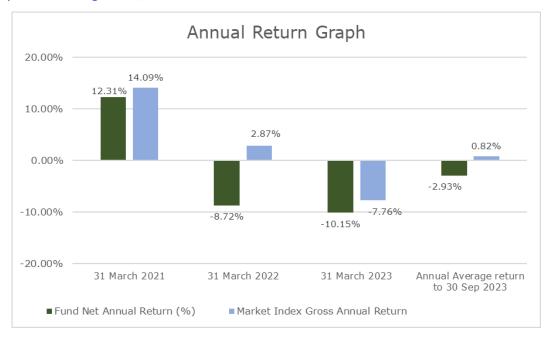

How has the fund performed?

| | rast year |
|--|-----------|
| Annual return ² (after deductions for charges and tax) | 3.73% |
| Annual return (after deductions for charges but before tax) | 3.86% |
| Market index annual return (reflects no deduction for charges and tax) | 6.35% |

Past year

The market index annual return is a composite index calculated using 33.13% FTSE Actuaries Government All Stock, 33.13% Bank of America Merrill Lynch Sterling Non-Gilt, 33.74% MSCI World, hedged 100% to New Zealand Dollars. This index has been the index of the fund since the inception of the fund.

More information about the market index is available in the Ranfurly Superannuation Scheme's Statement of Investment Policy and Objectives on the offer register at www.companiesoffice.govt.nz/disclose.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2023².

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Ranfurly Sterling Balanced Fund are charged fund charges. In the year to 31 March 2023 these were:

% of net asset value

| Total fund charges ³ | 1.48% |
|--|-------|
| Which are made up of— | |
| Total management and administration charges | 1.48% |
| Including — | |
| Manager's basic fee | 1.01% |
| Other management and administration charges ⁴ | 0.47% |

Other charges

The Funds may incur additional charges from the Underlying Funds when making an investment or withdrawal. More information on these fees is in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at www.companiesoffice.govt.nz/disclose.

Fund charges are stated GST inclusive.

Investors may also be charged individual action fees for specific actions or decisions (for example, withdrawal fees in certain circumstances, switching fee for second or subsequent fund switches). See the Product Disclosure Statement for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

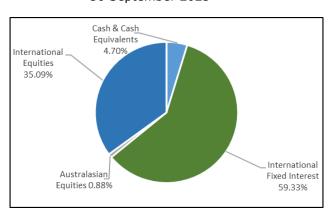

Example of how this applies to an investor

John had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, John received a return after fund charges were deducted of \$386 (that is 3.86% of his initial \$10,000). John paid GBPO in other charges. This gives John a total return after tax of \$373 for the year.

Notes

- ¹ This fund came into existence on 28 November 2018 and received its first investment on 18 October 2019. To calculate the risk indicator over a 5-year period, market index return data has been used for the period up to 31 October 2019 and actual returns have been used from 1 November 2019 to 30 September 2023. Using market index return data may make the risk inidcator a less reliable indicator of how much fund values are likely to go up and down in future.
- 2 From 1st April 2021 the methodology for calculating performance after tax has been changed. The Annual Returns Graph periods after 1^{st} April 2021 use the new methodology for the amounts reported.
- ³ The Annual Fund Charges are calculated based on actual assets under management, actual fees and expenses of the fund from 01 April 2022 to 31 March 23. More information on the Annual Fund Charges is available in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at www.companiesoffice.govt.nz/disclose.
- ⁴ Other Management and Administration Charges are calculated based on actual assets under management, actual fees and expenses and actual underlying fund manager fees of the fund from 01 April 2022 to 31 March 2023. More information on the Other Management and Administration Charges is available in the 'Other Material Information' document on the Ranfurly Superannuation Scheme's offer register at www.companiesoffice.govt.nz/disclose.
